REMEDIATION AND REDEVELOPMENT (RR) NEWS FROM WISCONSIN DNR
       November 15, 2001

NEW ANNUAL REPORT
The RR Program's annual report for 2000-2001 is now available. It
highlights various RR activities, including state-funded cleanup, spill
response and brownfields. It also describes selected success stories
where communities cleaned up and redeveloped contaminated properties,
as well as two new programs - the Dry Cleaner Reimbursement Program and
the Brownfields Site Assessment Grant Program. The annual report is on
our web page - please see "What's New?" at
http://www.dnr.state.wi.us/org/aw/rr/index.htm
or call the RR Information Line at 800-367-6076 (in-state long
distance) or 608-264-6020 (Madison area and out-of-state long
distance).

LINKS HAVE CHANGED FOR BRRTS ON THE WEB
BRRTS is the "Bureau for Remediation and Redevelopment Tracking
System". It lists contaminated locations that have been reported to
the RR Program. "BRRTS on the Web" is a web interface to BRRTS, linked
under the "Find Sites" button on our main web page at
http://www.dnr.state.wi.us/org/aw/rr/index.htm. Recently, the links to
the actual search pages within BRRTS on the Web have changed. This
will not affect those of you who enter BRRTS on the Web through our
main page, but if you have created direct bookmarks from your browser
to those search pages, you will probably need to make some changes.
First, the link to the main search page,
http://oraweb.dnr.state.wi.us/inter1/plsql/brrts2$.startup has changed
to http://www.dnr.state.wi.us/pls/brrts2$.startup. If you prefer to
bookmark the BRRTS on the Web start page, then we suggest you use this
new link, because we expect it to remain the same for the foreseeable
future. [Note: To help understand the next paragraph, you should know
that the new link will redirect you to
http://prodmtex00.dnr.state.wi.us/pls/inter1/brrts2$.startup, but you
should still bookmark the link we suggest above.]
Second, links you may have bookmarked previously to specific site
detail views will no longer work. For example:
http://oraweb.dnr.state.wi.us/inter1/plsql/brrts2$sw_web_fac_act_v.Quer
yViewByKey?P_DETAIL_SEQ_NO=133133 has changed to
http://prodmtex00.dnr.state.wi.us/pls/inter1/brrts2$sw_web_fac_act_v.Qu
eryViewByKey?P_DETAIL_SEQ_NO=133133. This will also affect the links
to downloads with the "Include URLs" option saved to Excel or web page
format. If all that weren't confusing enough, if you want to use the
above URLs, then you will probably need to copy and paste in pieces
them into your browser rather than clicking on them, when they are
wrapped over more than one line in this email. Our "RR News from DNR"
is sent via internet email to the Department of Administration (DOA),
and then DOA software actually sends it out. We have found that the
software adds hard returns in the middle of long URLs, which prevents
users from clicking directly on to them. If you have questions or
problems, please contact Alex Turner at turnea@dnr.state.wi.us, or at
608-264-6017.

CONSULTANT LIST FOR THE PUBLIC - REMINDER
The RR Program maintains a simple "name, address & phone number"
listing of environmental consultants (publication RR-024) who have
identified themselves as doing work in Wisconsin. This list is

intended to help responsible persons locate consultants to conduct
investigations and cleanups, and is not an endorsement of these
consultants. The list is on our web at
http://www.dnr.state.wi.us/org/aw/rr/archives/pubs/RR024.pdf
Please contact Megan Clemens at clemem@dnr.state.wi.us or at 608-261-
4391 to add or amend an entry on this list.

To subscribe to this newsletter: Send an e-mail message to
majordomo@badger.state.wi.us Omit an entry in the subject line, type
"subscribe rr" (without quote marks) alone in the body of the message.
